

Holodiscus discolor

Ocean Spray

Rosaceae

Exposure	Partial shade
Water	Occasional water
Form	Deciduous shrub
Height	20 feet
Flower color	White
Bloom time	Late spring

Dense panicles of tiny white flowers terminating the branches give Ocean spray its name. This is a good shrub for a woodland garden. It can take some sun and will be drought tolerant when established in coastal areas. Needs good drainage. Will look best if pruned after flowering.

Habitat Moist woodlands, rocky slopes
