

Iris douglasiana 'Randy's Dark Purple'

Douglas Iris

Iridaceae

Exposure Sun or part shade

Water Occasional water

Form Perennial

Height 18 inches

Flower color Purple

Bloom time Spring

Douglas Iris is one of the best native iris for the garden. The flowers are large and colorful and the leaves are wide and bright green. The clumps increase in size rapidly making a good ground cover. This selection has deep purple flowers and wide upright leaves.

Habitat Coastal forests and bluffs
