

# *Lonicera hispidula*

Honeysuckle  
Caprifoliaceae

<b>Exposure</b>	Partial shade
<b>Water</b>	Occasional water
<b>Form</b>	Deciduous vine
<b>Height</b>	
<b>Flower color</b>	Pink
<b>Bloom time</b>	Summer

This honeysuckle is a woody vine that can be grown either on a support or as a loose ground cover. It has bright red berries in the fall. It will not need water if grown in shade, but will grow faster if watered.

**Habitat** Woodland
