

# *Polypodium scolieri*

Leather-leaf fern

Polypodiaceae

**Exposure**      Partial shade

**Water**         Regular water

**Form**            Evergreen perennial

**Height**         18 inches

**Flower color**

**Bloom time**

A slow-growing evergreen fern from the north coast, well suited to a container. As it normally grows in rocks and trees, it needs good drainage.

**Habitat**      Coastal forests
